DETAILED ACTION

Non-Final Rejection

Election/Restriction

Applicant's election with traverse of Group I and claims 1-8 is acknowledged.

As requested by the Applicant the requirement for restriction has been withdrawn and all the claims (claims 1-16) will be examined in this case.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-16, as best understood, are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claims, elected for prosecution, are confusing and are not clear because claimed limitations, (claims 1, 9, a motor vehicle, a backplate; claims 2, 10, console bin is fixedly mounted in a position to roof bows, headliners, roof brackets, or side panels of said

motor vehicle and is mounted in a position desired by the consumers; claims 3, 11, storage is pivotally attached to said backplate; claims 5, 13, plunger switch operation dependent on the movement of said storage bin), are not shown in the figures and/or lacks support in the specification and therefore fails to particularly point out and distinctly claim the subject matter which applicant regards as the invention. These limitations must be shown or the feature(s) canceled from the claim(s). Applicant is requested to go through the application and ensure that the claimed matter has been described in the specification and shown in the drawing in such a way as to convey to one skilled in the art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-16 are rejected under 35 U.S.C. 102(b) as being anticipated by Leonard (5,264,670).

Regarding claims 1-16, Leonard (5,264,670) discloses in Fig. 1-7 the invention as claimed to include a motor vehicle 12, a backplate 24, pivotally mounted storage bin 14, a plunger switch 30, and a lighting source bulb 50.

Conclusion

The prior art made of record in attached Notice of Reference Cited (PTO-892) and not relied upon is considered pertinent to applicant's disclosure. This art of record shows various features similar to the applicant's invention.
